

WORKING FOR 1900.

Ohio County Democrats will Sacrifice Anything else for

COUNTY COMMISSIONER VOTES

WITH A VIEW TO CONTROLLING THE ELECTION MACHINERY WHEN THE PRESIDENCY IS AT STAKE—REPUBLICANS SHOULD BE ON THEIR GUARD AND DECLINE ALL OFFERS TO TRADE. THE DOVENER-CAMPBELL MEETING SATURDAY NIGHT.

The Ohio county Democratic committee is making a desperate fight to secure control of the board of county commissioners. Knowing that Blair is beaten hopelessly and that their legislative ticket is in the same hole, the Democrats are centering all their energies upon securing Republican votes for Democratic candidates for the county board.

They are looking ahead; they would, if possible, have control of the election machinery in Ohio county in 1900, when the stake is the Presidency.

Republicans should scorn any offers for trades made by the desperate Democracy. There is no necessity to trade at all if the Republican vote of the county is brought out to-morrow, but a few trades in each precinct would swing control of the county board of commissioners over to the Democracy, and that is a result which no Republican can look upon with complacency. Nothing is at stake in the election of more importance than control of this board. Republicans have no excuse to vote for the Democratic candidates, for the Republican nominees are invariably good men, most of them men who have had experience on the board.

Can any Republican who looks back upon the records of Democratic county boards of the past vote for a Democrat to-morrow? The county board of 1888 and 1892—these acts not remembered? Did not a Democratic board in this county disregard a custom of years standing, and place a majority of Democratic election judges in districts that were represented by Republicans in the board? Did not this same Democratic board disregard the choice of Republican election judges made by the county committee and substitute Republicans whom they believed to be incapable of holding their own with the two Democrats? Yes, all of this was done, and a Democratic board of commissioners can be depended upon to do the same thing in the future. In the face of such a record of rank partisanship by Democratic boards, the present Republican board allowed the Democratic member for Liberty district to name Democratic majority judges for the precincts in that district and also accepted the names submitted by the Democratic committee. Yet the Democrats could not have complained if the Republican board of commissioners had not been so fair.

In every district of the county the Democracy is endeavoring to make a winning fight for county commissioner, and everywhere Republicans should be on guard and decline all offers to trade.

CONFIDENT IN THE SECOND.

Mr. A. R. Campbell returned Saturday night from a four weeks' stumping tour of the Second district, and is confident of Congressman Dayton's re-election by a big majority. In Gratton, said Mr. Campbell, several bets have been made that Dayton will have 1,500 majority. The lowest estimate is placed at 1,000.

AN ENTHUSIASTIC MEETING

Saturday Night. Addressed by Captain Dovener and Judge Campbell.

The Dovener-Campbell meeting at the Opera House Saturday night was one of large attendance (notwithstanding the bad weather and the Sunday Register) and great enthusiasm. Captain John F. Dravo, the well known Pittsburgh riverman, who was to have been one of the speakers, was kept away by sickness. The speeches of the two speakers were received with great enthusiasm.

When Captain Dovener was introduced by Chairman B. S. Allison, the audience gave the candidate three hearty cheers. Captain Dovener made one of the best speeches of the campaign. Referring to a communication printed in the Market street Democratic organ, he denied that he had made a promise such as was alleged, and said he had never broken a promise. Referring to his vote on the Pacific railroad re-funding bill, he gave the reasons for his vote on that measure to the satisfaction of every person in the audience open to conviction. It could be seen that his vote meant that the government was secured as it had not been secured before.

Referring to the trip of the Wheeling delegation to San Francisco where the silver service was presented to the gunboat at Wheeling, the captain referred to the cartoon printed in the Register implying that the government had to pay over \$17,000 for the trip. He said the government had not appropriated a cent. On the other hand the party's transportation cost nobody a cent; John K. Cowen, of the Baltimore & Ohio railroad, realizing that Wheeling was an important contributor to the traffic handled by his road, extended to Captain Dovener and his friends the courtesies of his line, and the Chicago & Northwestern, Union Pacific, Southern Pacific and other roads did the same. The personal expenses of the gentlemen and ladies who made the trip were borne individually, an assessment being made before the start.

Continuing, the captain took up the issues of the campaign and made a speech that was thoroughly enjoyed by the audience, applause being frequent and hearty.

Judge John A. Campbell was next introduced by Chairman Allison and made a really eloquent and pointed address. He said the Republicans of the First district have thrown off apathy and predicted that on Tuesday there would be another hearty endorsement of protection, sound money and good government. His sketch of the great record of the Republican party in handling the affairs of the government was most interesting, and the assertion that the principles for which the Democratic party stands are unsound and not for the country's good was thoroughly appreciated and realized.

"A CHANGE OF TWO VOTES."

This the Text of an Appeal Made by the Local Democracy.

The Ohio county Democratic committee is distributing circulars and other printed matter, appealing to their voters to come out and vote to-morrow, and also asking Democrats to induce their Republican neighbors to vote with them—their way, of course—and adding that "a change of two votes in a precinct would very likely accomplish the result" they desire. This is true, and Republicans would do well to beware of any enticing alliances or trades with their Democratic friends, particularly

on county commissioners upon which the Democrats appear to be centering their fight.

"DESPICABLE METHODS"

Being Used by the Democrats in the Over-the-river District.

In Belmont county, as well as in the others comprising the over-the-river congressional district, the Democrats have just issued a circular headed, "Despicable Methods," and signed by the "Straight Republican Committee," in which an attempt is made by the vilest misrepresentations and falsehood to prejudice Republicans against Captain Danford. It is needless to inform the Republicans of the over-the-river district that such a production could only come from the Democracy.

BISHOP WILSON'S APPEAL

To the Colored Republicans to Continue in Their Allegiance to the Party that Has Done So Much for the Race.

SIR:—In the first place, I wish the public to thoroughly understand as a citizen of this commonwealth, I believe it is the privilege of every voter to vote as he wishes; but it ought always to be understood by each one in casting his vote, "Am I doing the best thing I can for my country and myself?"

I shall not touch on national affairs at this time, but from a local and congressional standpoint. As a race we should stand and defend the principles of the Republican party because what little recognition the negro has as a citizen came directly through the Republican party, and hence the bridge that has for the last thirty years carried so many of us over safely ought not to be questioned at this late date.

Since President Lincoln struck the shackles from four and one-half millions of bondsmen and women, there has been but one office in this greatest country on earth not filled by the black man and that is the presidential chair, and I expect a black president before the next thirty years.

Fellow citizens of Ohio county and the state of West Virginia, what we want on Tuesday is to vote the ticket solid and let the present prosperity continue. Now, what we want to do on Tuesday is to elect four congressmen and send them to Congress to support the present administration and the men we expect to elect are Hon. B. B. Dovener, Alston G. Dayton, William S. Edwards and R. H. Freer. These men are among the best of the party and the only thing for us to do is to support and elect them, and if anything is wanted, go like men and demand your rights, and as a minister of the gospel I will put myself on record by saying if we, as a race, show our stability and integrity to the party from principle, our recognition will be as high as we are able to fill.

Mr. Whitaker, for state senator; Behrens, Connelly, McLure and McCoy, for house of delegates, demand our solid vote, and I believe from the expressions of the majority that they will be cared for at the polls. The entire county ticket should have our support. All we need to do is to vote early and vote right and tell others to do the same.

In conclusion, allow me to say to every colored voter, be loyal to your cause and when the election is over the entire ticket will be elected, our rights vindicated, our factories and mills employed thousands of men that were idle and nothing to do but to hear their wives and little ones cry and beg for the common things of life because they had nothing to do two years ago.

Do we want those times so soon? If so, vote the Democratic ticket. If you want prosperity, vote the Republican ticket solid. Without further appeal, I believe every Afro-American of the state of West Virginia and county of Ohio will tell the other states that we as a race, know how to cast our vote. Like the story of the white man calling for a collection at a colored meeting; he became highly enthused the way the money was coming and cried out in a loud voice, "Thank the Lord you folks are coming right to the front; I tell you you all are coming." An old colored woman jumped up and shouted, "Yes, thank God, we done come." And so it is with us, we are here and here to stay and after next Tuesday will tell the nation how the black people of the state of West Virginia cast their votes by rolling up a large Republican majority. I am for the cause.

BISHOP W. R. WILSON.
Wheeling, Nov. 6.

Doctors now agree that consumption is curable.

Three things, if taken together, will cure nearly every case in the first stages; the majority of cases more advanced; and a few of those far advanced.

The first is, fresh air; the second, proper food; the third, Scott's Emulsion of cod-liver oil with hypophosphites.

To be cured, you must not lose in weight, and, if thin, you must gain. Nothing equals Scott's Emulsion to keep you in good flesh.

NOVEMBER MOUNT.

The November number of the "Mount," the magazine published by the students of Mont de Chantal academy, has just been issued from the Intelligencer's job room, and it is a creditable number from every point of view. There is more reading matter than usual, and the pages teem with choice original contributions.

An appropriate article on Lafayette, with references to the recent celebration of Lafayette day at the Mount, are prominent features. Very entertaining is the first of the "Mount Vignettes," which are to occupy a place in succeeding numbers. This reminiscence of life at the academy is entitled the "Orchard Raid," and is an excellent contribution. The exchange, local and various departments are all ably edited.

Internal Revenue Decisions.

The following ruling has been handed down by Commissioner Scott on the transfer of an insurance certificate: It is subject to taxation as "an assignment or transfer of mortgage, lease or policy of insurance" and a stamp duty is imposed thereon equal to the amount imposed upon the original.

An express company in this city asked for a ruling on money orders, drafts and checks issued here and payable in Honolulu, S. I., and if they are held to be foreign. The commissioner has replied as follows: That for purposes of taxation under the Act of June 13, 1898, until further legislation the Hawaiian Islands are to be considered as a foreign country, the relations of the two countries continuing practically unchanged. This ruling is in accordance with treasury decision No. 19,783.

SERIOUS CRISIS

In the New Foundland Cabinet—French Treaty Jeopardized.

ST. JOHNS, N. F., Nov. 6.—There is a serious cabinet crisis in New Foundland. Sir Herbert Murray, the governor, demands the resignation of M. Morine, minister of finance. The ostensible reason is that M. Morine is the general counsel of Mr. Reid, the railway contractor, but the real cause is the continued friction between Governor Murray and the minister. M. Morine, in tendering his resignation, points out that Sir William Whiteway, the former premier and Messrs. Emerson and Morris, members of the late cabinet, held a similar relation to the contractor and that Sir Herbert Murray acquiesced in the arrangement in all these cases. He reminds the governor also that he has been aware ever since April last of his (Morine's) relation to Mr. Reid and insists that the governor's omission to interfere before stamps his action now as personal and vindictive.

It is feared that complications will arise, wrecking the cabinet and seriously prejudicing the negotiations regarding the French treaty shore already under way before the conference of the settlement of the disputes between the United States and Canada.
